Ms. Setchell provided a history of the Village’s account with IMRF which currently has a negative balance of $83,841.44. She explained that stated that the Village could make a payment to reduce the unfunded liability but noted that IMRF has a 5 year smoothing effect. She suggested that prior to the Village making a lump payment, it should confirm that IMRF will have a positive investment performance at the end of the year. Village Manager Lasday inquired whether Village Finance Director McCulloch should include a payment in the December 2012 Bill Submit List. Village Counsel Filippini suggested that a payment be placed on the Bill Submit List, but that the Board of Trustees could issue a set of parameters before payment is released. Ms. Setchell stated that payment is required by the last day of the year. Trustee Korer inquired about possible steps to effect payment and offered suggestion to limit the authority to allow an electronic fund transfer greater than $25,000. Village Finance Director McCulloch stated that a paper check could be issued in lieu of an electronic payment, but noted that there would be a $25 processing fee as well as the cost to mail
the payment. The consensus of the Board is to have the payment placed on the December 2012 Bill Submit List.
