He stated that the Village of Bannockburn purchased just over 124,000,000 gallons from Highland Park, over
a 5,000,000 gallon increase from the previous year. He stated that the Village is still under its allocated amount approved by the State. He stated that commercial consumption decreased but that residential usage increased by over 8,000,000 gallons. He stated that this would be attributable to the drought over the summer. He stated that the unaccounted for flow decreased from 4.9% to 4.0%. He stated that progress has been made but that the Village can still improve. He recommended that the Village continue its water meter calibration every few years. He stated that smaller users can be calibrated further apart. Village Engineer Gewalt stated that at the last meeting, the Board of Trustees requested that he review other streets that could possibly be paved soon. He stated that looking at the condition of the road and the number of years it has been since the road had been last repaved, he would recommend that Sunset Lane be the first road repaved followed by High Terrace. He stated that Lakewood Drive and Bridle Lane could be deferred, noting that these two roads should be completed at the same time. He stated that Sunset Lane and High Terrace repaving could be funded with MFT monies for approximately $200,000. Trustee Alch stated that she thought that MFT monies were going to be used for the Duffy Lane Repaving Project. Village Manager Lasday replied that MFT monies will be used for the Duffy Lane Repaving Project. She stated that there is approximately $500,000 in MFT monies. She stated that she does not know the full costs as of yet for the Duffy Lane Repaving Project but that the balance of the remaining funds could be used to repave Sunset Lane and High Terrace. Village Engineer Gewalt stated that he estimates the cost to repave Duffy Lane at $200,000 which would still leave enough funds to cover the costs for repaving Sunset Lane and High Terrace. Village Manager Lasday noted that this approval would simply be to have Village Engineer Gewalt prepare a Motor Fuel Tax resolution and necessary bidding documents for the Village of Bannockburn 2013 Street Resurfacing Program for Sunset Lane and High Terrace. Trustee Korer moved, seconded by Trustee Rothing, to direct Gewalt Hamilton Associates to prepare a Motor Fuel Tax resolution and necessary bidding documents for the Village of Bannockburn 2013 Street Resurfacing Program (Sunset Lane and High Terrace). He noted that many of the nonresidential properties have several backflow devices. Trustee Fisher stated that the EPA wants to have 90% compliance. Village Engineer Gewalt stated that the Village needs to send a survey requesting information on backflow devices. He stated that the Village can then follow up on with residents. Trustee Rething stated that backflow devices would be placed on pools, hot tubs, irrigation systems, and any system that pushes out water to ensure that reverse flow does not occur.

Village Engineer Gewalt replied that the Village could increase their sewer invoices based upon statistics in RJN’s report. Trustee Alch inquired whether the Village can be fined by the IEPA. Trustee Fisher stated that he thinks that the IEPA will be enforcing this via fines in 2014. Village Engineer Gewalt stated that he anticipates that approximately 5 people may be problematic. *Wilmot Road Repaving Project.* Village Engineer Gewalt reported that the total cost to repave Wilmot Road was $467,150.12. Village Engineer Gewalt replied that the amount only includes paving of the road. Village Manager Lasday noted that a portion of the Village’s
costs will be funded with Recovery Zone monies with the balance coming from the General Fund. Trustee Korer inquired whether the Village will be billing Del Mar Water Company for the construction costs. Village Finance Director McCulloch replied that the Village received a deposit that would be equal to 120% of the estimated costs to construct the interconnection. She noted that Del Mar Water Company does have a 30 day window to dispute or seek clarification of the charges. Village Engineer Gewalt stated that Del Mar Water Company has already reviewed the first invoice and agreed with the charges. Trustee Orth inquired whether the Board has the ability to reverse the designation of the funds if it so chose. Village Finance Director McCulloch stated that the Trustees could take Board action to reverse its decision.
