February 8, 2017

Dear President Rothing, Police Commissioner Boyle and Board of Trustees:

On behalf of the members of the Bannockburn Police Department, I am pleased to submit our Annual Report for 2016. This report describes the enforcement actions taken by your police officers, the assisting of and participation in Village of Bannockburn events, and the service areas developed to assist our Village residents.

With our continued efforts to control the crime rate, Bannockburn remains one of the safest communities in Illinois. The department will continue its efforts to increase visible patrolling, especially in the more susceptible crime areas.

In 2016, the department was able to provide 1,296 hours of training to our officers. This number has remained consistent since 2001. The officers continue to be well trained, educated professionals who serve the residents of Bannockburn with pride and integrity.

The department remains committed to implementing programs and ideas that will make us more effective and accessible to the residents who we serve. Although we are small, our size does not limit our vision to be the best that we can be.

Thank you, President Rothing, Police Commissioner Boyle and Board of Trustees, for your continued support of the Law Enforcement Services in our Village.

Sincerely,

Ronald D. Price

SIGNIFICANT CASES
The following cases occurred in the Village of Bannockburn. All of the cases involved the arrest of a suspect by the Bannockburn Police Department. Some of the suspects’ cases are still pending as the wheels of justice move slowly. We are hoping for a successful conclusion to each matter in 2017.

**Assault Case at Trinity International University**

On Monday, February 2, 2016, Officer Robert Ogden met with a Trinity Student who was the victim of an assault on campus. Her mother brought her to the Bannockburn Police Department to file a report. The victim currently attends Trinity International University and the incident occurred on campus. She explained that her ex-boyfriend met with her in his car and told her that he would post revealing photographs of her on social media and send nude photos of her to all of her friends unless she was willing to have sex with him. At the time, he told her that he had a gun and placed his hand in his pocket. The victim refused, got out of his car and called her mother. Officer Ogden assisted the victim with obtaining an emergency order of protection and began an investigation. With the assistance of Officer Marci Landy, who conducted an in-depth interview with the victim, the officers obtained a search warrant for the suspect’s phone and computer. Officer Ogden served the warrant in Mundelein, IL with the assistance of the Mundelein Police Department. The officers did find several images of the victim on the suspect’s phone. The photographs were taken during a time when the two were dating. However, some of the images were taken during a time when the victim was only 17 years old. The suspect was charged with 2 counts of child pornography and 1 count of intimidation.
**DUI and Weapons Charge**

During a traffic stop on Saturday, April 16, 2016, Officer Dennis Sears noticed that the occupants inside the vehicle were moving around and ducking down in their seats as he approached the vehicle. Based on his training and experience, he immediately called for backup officers to assist. During the course of his questioning of the driver and subsequent arrest and search of the vehicle, he located a bag of cannabis as well as a loaded semi-automatic hand gun. During interviews with the back seat passengers, he learned that the front seat passenger carries the weapon with him and he had stashed it in the glove box as Officer Sears stopped the vehicle. The driver was charged with DUI/drugs and possession of cannabis. The passenger was charged with unlawful use of a weapon, no FOID card and tampering with a serial number on a weapon. Both subjects had criminal records and were transported to the Lake County Jail. Officer Sears stated that both subjects were obnoxious throughout the booking process. They made a mess of the holding cell and insulted the officers. As they were arriving at the Lake County Jail, they both broke out in a song and continued to laugh hysterically as they were handed over to the Lake County jail guards. Both suspects were found guilty, paid a fine, and were placed on probation.
**Netrix Case**

On Thursday, April 6, 2016, Sergeant Bruce Bone appeared in Lake County Bond Court before Judge Christine Bishop. Judge Bishop signed a warrant for Johnny D. Vitto for felony theft. Over a period of six months, trusted Netrix employee Johnny Vitto had been placing fictitious orders for I-Pad computers in the amount of $612,000.00. The bond amount was set at $500,000.00. Sergeant Bone met with the Lake County Sheriff’s Office warrant division and provided them with a copy of the warrant. The next day Sergeant Bone attempted to serve the warrant at Vitto’s home and place of employment, but he was unsuccessful. We advised the Sheriff’s Office warrant division and they began the process of trying to locate Mr. Vitto.

On Monday, October 10, 2016, we received some good news from the Lake County Sheriff’s Police. Johnny Vitto was apprehended by the Elmwood Park Police. We made several attempts to locate him and he was listed as one of the top ten wanted individuals by the Lake County Sheriff’s Police. He is currently awaiting trial in Lake County.

The Police and Fire Departments handed out safety information and goodies to the children. There was a smoke trailer where everyone had the opportunity to see what happens in the event of a fire and how to get out safely. This year, the big hits with the children were the mascots on hand. Daren the lion, Sparky the fire dog and McGruff the crime dog were all in attendance. The Kids are 1st group gave out 55 child safety I.D. kits to the parents in attendance. PICTORIAL HIGHLIGHTS
Understanding the “Crime Index”

The Crime Index is used to indicate the amount and extent of Violent Crimes and Property Crimes, in a given jurisdiction, as defined by the International Association of Chiefs of Police Committee on Uniform Crime Reports (UCR). Police departments throughout the United States report on eight crime areas: four categories of Violent Crimes and four categories of Property Crimes.

**Violent Crimes**
- Murder
- Criminal Sexual Assault
- Robbery
- Aggravated Assault/Battery

**Property Crimes**
- Burglary
- Theft
- Vehicle Theft
- Arson

The Crime Index is the total number of indexed offenses occurring within a given jurisdiction during a specified period of time. In 2016, Bannockburn had a crime index of 12. Below is a list of neighboring communities and their Crime Index.

Crime Index Offenses

Four Year Comparison

The above chart shows a comparison of the indexed crime totals for each year shown. Bannockburn continues to maintain a low crime index. The Bannockburn Police Department will continue to patrol and monitor residential and commercial areas of the Village in our effort to maintain a low crime index number and keep our residents and their property safe.

Similar to prior years, the Waukegan Road businesses and the Bannockburn Green Retail Center accounted for approximately half of the reported crimes in 2016.

Our Department attempts to aggressively patrol the above areas with marked police vehicles. For the most part, increased visible patrolling tends to deter crime. The frustrating part of aggressive patrolling is that it is impossible to measure just how effective we are. While we can easily measure when crime occurs, we cannot measure how many crimes we prevent by our increased presence. The Department will continue its aggressive patrols in an attempt to decrease the crime.

We feel the response time category is an important area to report on. For the most part, the Department continues to consistently respond to emergency calls in about three minutes.

The following calls would be considered emergency calls:

- Accident with injuries
- Ambulance calls (medical emergencies)
- Fire calls
- Any in-progress call
- Burglar & Panic Alarms

In 2016, the average response time for all other service calls was 4.45 minutes.
The above chart breaks down the amount of service calls by day of the week. This year, the busiest day of the week was Thursday.
2016 Calls for Service and/or Activity

Four Year Comparison

Calls for service and initiated activity includes activity generated by crime complaints, requests for service, officer initiated activity, traffic accidents, alarms, and a myriad of other services provided to our residents and the public. A partial list of these calls is provided starting on the next page.

In 2016, the Bannockburn Police Department responded to or initiated 3,710 calls for service.

Child Safety Technicians installed or inspected 26 child safety seats at the Bannockburn Police Department during 2016.

Traffic Accident Locations

For the Year 2016

Half Day Road continues to be the number one location for traffic crashes.
Private Property Traffic Accident Locations

For the Year 2016

The Waukegan Road parking lots are the number one location for parking lot crashes.
Enforcement Activity

In 2011, the Department implemented a Compliance ticket as a way to issue a citation for minor violations that would often times be dismissed by a judge in court or, because of the high fine associated with the charge, a officer would not issue a ticket. Compliance tickets cover minor infractions such as tinted driver’s window, seat belts, one headlight, etc.

The officers issue written warnings for minor infractions such as failure to use a turn signal or for other less serious violations. Since the system changed in 2011, the officer now has a third option when stopping a vehicle for a traffic violation in the Village of Bannockburn.
Total Village Fines Collected

The fine totals illustrated below are a combination of Illinois Vehicle Code violations, Village of Bannockburn compliance citations and parking tickets.

In addition to the fines collected, the Bannockburn Police Department also received $9,900.00 from administrative tows due to arrests.
Racial Profiling

The Bannockburn Police Department expressly prohibits racial profiling and other biased-based policing.

Since 2004, all Law Enforcement Agencies in Illinois are mandated to keep statistical data on every vehicle that is stopped for a traffic violation. The Illinois Department of Transportation is responsible for collecting and compiling the data and results can be found on their website www.dot.il.gov. Regardless of the outcome (verbal warning, written warning or traffic ticket), a “Traffic Stop Data Sheet” is required to be completed. The state mandated program resulted in extra time officers spent completing a traffic stop and additional time by records personnel to input the data into a special computer program.

An important word to understand when looking at traffic stop data is “benchmark.” A benchmark is terminology used by the Illinois Department of Transportation and Northwestern University to describe the acceptable level of minorities being stopped by a community. In the Village of Bannockburn, a 30.58% benchmark was established by Lake County. Of all the vehicle drivers stopped in 2016 by the Bannockburn Police Department, 25.13% were minorities. The breakdown is as follows.

The Department has a pro-active plan to ensure initiatives are in place to prevent racial profiling:

- Anti-Racial profiling policy
- Process for investigating citizen complaints
- Process for investigating officer complaints
- Training which includes:
  - Cultural diversity
  - Racial profiling
  - Traffic stop protocols
  - Review of Illinois Supreme Court Decisions
Multi-Agency Memberships

Both large and small police departments pull resources and manpower together in an effort to provide their citizens with the best service possible. This cooperation allows for help, when needed, that would otherwise not be affordable by a single agency. The Bannockburn Police Department belongs to, and participates in, the following memberships:

Major Crash Assistance Team (MCAT)

MCAT was established by an Inter-Governmental Agreement in July, 2004. The Agreement reads in part: “In recognition of the fact the efficient investigation of serious traffic crashes is enhanced when agencies have access to the resources and support of other agencies. Further, it is recognized that a primary goal in the investigation of serious traffic crashes is to establish an accurate record of the factors and conditions leading up to the traffic crash.” I am currently serving as President on the Executive Board of MCAT. There are 29 contributing agencies and 6 non-contributing agencies involved in MCAT. In 2016, the team handled 39 major crashes in Lake County. The Bannockburn Police Department did require the assistance of MCAT once during 2016. The crash involved a bicycle on Duffy Lane on June 13, 2016.
Lake County Major Crimes Task Force (LCMCTF)

The LCMCTF was established by an Inter-Governmental Agreement in 1991. The purpose, as outlined in the agreement, reads as follows:

“The purpose of the Lake County Major Crimes Task Force is to provide comprehensive investigation to member departments of the Task Force of major murder cases, police involved shootings, non-parental kidnappings, and other exceptionally heinous offenses when requested to do so by the Chief of Police of member departments.”

The Task Force has been nationally recognized for its work in the resolution of a number of high profile homicide investigations. Membership is limited to Lake County police agencies.

During the calendar year of 2016, Officer Robert Ogden worked as an Evidence Technician with the Lake County Major Crimes Task Force, and assisted the following Lake County Illinois Police Departments with the following cases.

January 6, 2016 Zion Officer Involved Shooting
March 4, 2016 Lake County Sheriff’s Office In Custody Death
March 31, 2016 Lake Villa In Custody Death
April 16, 2016 Antioch Officer Involved Shooting
June 9, 2016 Lake Forest Suspicious Death

July 27, 2016 Zion Officer Involved Shooting
August 2, 2016 North Chicago Homicide Investigation
August 12, 2016 Zion Homicide Investigation
September 3, 2016 Round Lake Officer Involved Shooting
December 23, 2016 Vernon Hills Suspicious Death
December 24, 2016 Libertyville Homicide Investigation
Lake County Metropolitan Enforcement Group (LCMEG)

The Illinois Intergovernmental Drug Laws Enforcement Act authorizes the establishment of Metropolitan Enforcement Groups to promote cooperation and increase efficiency in the enforcement of drug laws among units of local government. LCMEG helps to keep drugs out of the Village of Bannockburn. The group also makes the following services available to member agencies:

- Drug training
- Drug presentations
- Free drug testing kits for parents
- Equipment (undercover vehicles)
- Drug arrest assistance

Northern Illinois Police Alarm System (NIPAS)

NIPAS was established by an Inter-Governmental Service Agreement in 1983. The purpose, as stated in the agreement, reads as follows: “This agreement is made in recognition of the fact that natural occurrences or man-made occurrences may result in situations which may be beyond the ability of the individual community to deal with effectively in terms of manpower and equipment resources on hand at a given time. Each community has and does express its intent to assist its neighbor communities by assigning some of its manpower and equipment resources to an affected community as resources and situations allow. The specific intent of this agreement is to permit the police departments of each community to more fully safeguard the lives, persons, and property of all citizens.”

We are part of the NIPAS Car Plan and Emergency Services Team (EST). The Car Plan can give us up to 50 uniformed police officers in marked police cars at a moment’s notice. Typically, the Car Plan is used for traffic control, crowd control, and large area searches. The NIPAS EST is the largest multi-agency SWAT Team in the country. The team consists of 85 police officers that can handle any tactical situation or high-risk incident.
Northeastern Illinois Regional Crime Laboratory (NIRCL)

Membership with the NIRCL was established in May of 1987 by an Inter-Governmental Agreement. The agreement was updated in 2007 and the crime lab moved from Highland Park to Vernon Hills. The crime lab performs numerous services for the Bannockburn Police Department:

- Process fingerprints
- Process DUI kits
- Chemistry tests to establish drug identification
- Destroy firearms and drugs
- Handwriting analysis and comparison
- Assist at crime scenes

East Shore Radio Network (ESRN)

The ESRN was established by an Inter-Governmental Service Agreement in September of 1971. Members of the network include Deerfield, Highland Park, Lake Forest, Riverwoods, Highwood, and Lake Bluff. These communities share the same police radio frequency. The governing board consists of the Chief of Police from each member department. The network provides purchase efficiency for radio, telephone, and computer equipment.
Illinois Law Enforcement Alarm System (ILEAS)

ILEAS was established by an Inter-Governmental Agreement in January of 2003. ILEAS is a product of the Illinois Terrorism Task Force of the Illinois Association of Chiefs of Police and is intended to provide a mutual aid system for all law enforcement agencies operating within Illinois. ILEAS is designed to provide law enforcement assistance to communities during any emergency condition and is not limited to acts of terrorism. ILEAS was modeled after NIPAS, except that ILEAS applies to all Illinois Law Enforcement Agencies (county, state, federal, university, and railroad). NIPAS is limited to local municipal law enforcement agencies.
