9. 08-09/08: Consider a Ratification of Approval of a Plat of Vacation (Metro Self Storage Property).

Village Engineer David Gewalt noted that the vacation of this existing easement needs to be vacated as part of Metro Self Storage development at 1951 Waukegan Road.

Trustee Fisher asked if they are modifying the water service, about the status of the existing hydrants, if the hydrants are technically the Village’s hydrants, and whether the hydrants are metered.

Village Engineer Gewalt noted that they are modifying the water service with the Metro Self Storage project, that the water lines are on private property so the hydrants are private hydrants, that two hydrants are being removed and one is being added, and lastly that hydrants are not metered because it reduces the water pressure available in case of a Fire Department emergency.

Trustee Fisher noted his concern that owners are utilizing unmetered water from the hydrants. He would like to notice all owners of private hydrants via mail what the
hydrants can and cannot be used for and the responsibility for maintenance of the hydrant. The letter should also include a map of the property illustrating where the hydrants being referenced are located. The letter will be prepared for issuance by the water commissioner.

Trustee Boyle moved, seconded by Trustee Korer, to approve the ratification of the approval of a plat of vacation for the Metro Self Storage property at 1951 Waukegan Road. Ayes: Five (Ansani, Boyle, Fisher, Korer, Orth); Nays: None; Absent: None.

15. **14-09/08: Consider Approval of a Business Electronics Recycling Collection at Bannockburn Green Retail Center on October 24, 2014.**
President Rothing noted this was a project that he had worked on that is specifically for businesses, schools, and government for electronics that are no longer allowed in landfills. He noted this is a partnership with E-works and SWALCO. He noted this is not for residential users but an option for businesses. If people want residential options, the residential drop off is in the Highland Park. He noted that this is really a program for Bannockburn businesses and our Bannockburn BBQ partner communities.

Trustee Ansani inquired as to who is paying for advertising for this.

President Rothing noted that all the advertising is done through SWALCO.

Manager Lasday noted that we did get consent from the Bannockburn Green Retail Center to do the event.

Trustee Ansani moved, seconded by Trustee Fisher, to approve the Business Electronics Recycling Collection at Bannockburn Green Retail Center on October 24, 2014. On a voice vote, the motion was unanimously approved. Ayes: Five (Ansani, Boyle, Fisher, Korer, Orth); Nays: None; Absent: None.

16. **15A-09/08: Consider Approval of a Resolution Authorizing the Execution of a Preliminary Engineering Services Agreement For Federal Participation between the Illinois Department of Transportation and the Village of Bannockburn for Road Improvements along North Avenue from Wilmot Road to Telegraph Road.**
Manager Lasday noted the first resolution is item 15A and is for Phase I and Phase II design engineering and will be done to determine out what the actual project will be. The second resolution is item 15B and authorizes Gewalt Hamilton to do the engineering for the project once we know the scope. It was noted that the Village of Bannockburn and the City of Deerfield will split the cost of the design and construction of North Avenue but the City of Deerfield will pay for all the costs associated with the water main reconstruction. The Village is trying to get federal funding with the City of Deerfield and these resolutions would help ensure that all the necessary approvals are completed up front so the federal dollars can be utilized. Once this is done, then we have to try to get it designated as a federal route (FAU route).

Trustee Fisher asked if we are taking a chance here without knowing what is going to happen and the cost of the project.

Trustee Korer noted that this is how we did it during the great recession and because we had the engineering designs ready we could get the federal funding.

Village Engineer Gewalt noted that by the Village doing this initial engineering work, there is a greater likelihood the project will be moved along faster.
Manager Lasday asked if in regards to the pathway if will we need to take property from the neighbors.

Village Engineer Gewalt noted that part of phase I is to assess the cost of putting in the pathway in relation to the property, grading, landscaping and trees. If it is too expensive it usually gets dropped.

Manager Lasday asked if it will help diminish the water issues in that area.

Village Engineer Gewalt noted that this is proposing curb and gutters with the project but that we cannot change the flow of the water.

Discussion continued about the timing of the pathway consideration, the size of North Avenue right-of-way in relation to whether there is enough space for the pathway, whether we can use it for a bike lane if there is enough room, if there are potential conflicts from the viewpoint of Deerfield’s goals and Bannockburn’s goals, discussion about hydrants in the area, and vegetation within the right-of-way.

Trustee Orth moved, seconded by Trustee Korer, to approve Resolution 2014-R-27, a Resolution Authorizing the Execution of a Preliminary Engineering Services Agreement for Federal Participation between the Illinois Department of Transportation and the Village of Bannockburn for Road Improvements along North Avenue from Wilmot Road to Telegraph Road. After brief discussion, the consensus was to defer the deer management program for at least another year.

21. 19-09/08: **Village Engineer Report.**
*Top Projects* Village Engineer David Gewalt noted that in regards to the Dunsinane Lane paving, the contractors did come in last week to put in storm sewer but the milling has been postponed until Thursday. They still anticipate finishing at the end of September; Behm pavement will be doing the crack filling on a Saturday and was looking for the Board to permit this so that they can do it a little bit easier without all the traffic. Manager Lasday noted she will let the Board know about the Saturday date for approval of work to stay out of the way of the businesses.

President Rothing inquired as to what the solution was for the leaking hydrant on Wilmot and North Avenue as he had reported the leak. Engineer Gewalt had no update. Trustee Fisher stated he thought it was a stem that snapped.

Chief Ron Price provided a report on the following items:
- Robert Ogden is in his first week of the 10 week course in Tennessee and when he comes back he will be one of the experts in Lake County because he will be one of the only people in Lake County to go through it. He thanked the board for their support so he can attend school. Per the recommendation of Trustee Orth at the meeting, he will have Officer Ogden provide a presentation of the training following his return.

- Proud to be partnering with the Lake County Veterans Commission who is collecting new or gently used adult sized coats to help veterans out. On September 26th (before Deerfield/Highland Park football game) we are setting a goal to bring in more coats than Deerfield/Highland Park.
- Regarding the bronze Dex statute, he noted that the sculpture arrived on Friday afternoon and there is going to be a special place outside the police department door which will be landscaped for the statute. Following suggestion to consider other more visible locations, Chief Price noted he would assess other locations for the statute.
• He noted that Heinen’s is doing well and there are no issues at all with the store. He noted that we are happy to have them in town.

President Rothing thanked Chief Price, the Police and Staff for the Battle of Bannockburn 700th Celebration. President Rothing also recapped the day, which received great attendance and very positive feedback.

23. 21-09/08: Village Counsel Report. No report

24. 22-09/08: Village Manager Report.
Village Manager Lasday noted that with Friday’s storms we had about 50 residents out of power and ComEd was out there right away. She was in communication with ComEd on Saturday and it was the fastest help Bannockburn has received. Fortunately, we had power for the 700th celebration event. She noted that the trees that came down were quickly removed from streets and overall we faired okay.

Manager Lasday noted that she officially received her International City/County Management Association (ICMA) pin for accreditation and she is now officially considered a credentialed manager. She noted that ICMA has requested that we do a press release to illustrate her achievement and she will work on putting that together.

Trustees Orth & Fisher noted that Manager Lasday is the best thing to happen to Bannockburn in a long time and thanked her for her work.

Manager Lasday circulated a suggestion for a Village-wide Halloween event from a resident. She noted it is too late to do it this year but perhaps it is something to consider in the coming years if the Board wishes.

It was done at about 10 residents’ homes last Tuesday within the Village, as well as, some of the businesses and the school. He noted there will likely be one more day of filming from people like Tom Heinen talking about how great a place Bannockburn is. He noted the video will have a professional voice over reading a prepared script about Bannockburn.
- He reminded the Board that next Sunday is the Bannockburn golf scramble. He noted it will have great prizes from the local businesses and it will be a fun day with the neighbors.
- He noted there is an Economic Development Commission meeting this Wednesday. The meeting will particularly be about the commercial waste hauling contract that goes into effect in 2015 with Lakeshore Waste Hauling. He also added that Trinity International University has already looked into switching over to Lakeshore Waste Hauling.
- He noted that Heinen’s has an event this weekend called the hatch Chili roast. The event will be on Saturday from 11-5 and Sunday from 11-5.
