   Village Manager Lasday introduced the Board to the issues, comments, summary of points and concerns that residents have raised regarding the tree ordinance including
buckthorn removal, opacity requirements and the financial implications of the regulation. Mr. Ryan (1150 North Avenue) noted that he has been working on various landscaping projects to follow opacity requirements and improve drainage. He noted that he has a colossal amount of buckthorn on all four sides of his property which he’d like to remove. He added that he hopes the opacity requirement could be changed so not to discourage residents from removing buckthorn on their property.

Bruce Nelson (1665 Meadow Lane) noted that since the 1996 opacity requirements were established, there has been a significant increase in the amount of material that is required to plant for the opacity requirement. He noted that the Village of Riverwoods has a program that pays residence to remove the buckthorn on their properties.

Village Forester Todd Sinn (Urban Forester Management) remarked about his experiences with residents over the last several years when discussing removal of buckthorn and required opacity. He noted some of his recommendations are to evaluate the formula used to determine opacity to reduce density and evaluate how opacity is effected by berms which aren’t in the buffer yard but do screen. He noted that the current ordinance is long, confusing and often cost prohibitive.

President Rothing noted that the removal of the ash trees has changed the visual look of many of the streets in the Village. Trustee Korer noted that with the infestation occurring like the ash borer, residents may have to get used to the visual change of not seeing as much dense foliage. He added that we need to think about the cost of replanting to homeowners and use of best practice in forestry. Trustee Lackner asked what the Village’s goal is regarding buckthorn. Trustee Martin asked what the next steps are in this process. President Rothing noted that the Board would refer this to the ARC for input and to the PCZBA for recommendations. Trustee Martin asked if after the ARC and PCZBA review and have been forwarded, can the Board make adjustments. President Rothing noted that it will take several meetings for the ARC and PCZBA to review and make recommendations.

Village Manager Lasday asked Todd Sinn to make recommendations for changes to section 9-107 and 9-108 of the Tree Ordinance. Village Counsel Filippini noted that different communities have different requirements depending on their respective desired outcome. Village Manager Lasday asked Village Counsel to provide samples of tree ordinances that he has drafted. She noted that our direction to the ARC and PCZBA is to simplify and clarify.

Trustee Lackner moved, seconded by Trustee Martin, to refer review of review of the Village of Bannockburn’s Tree Ordinance with Regards to the Village’s Opacity and Reforestation Requirements to the Plan Commission / Zoning Board of Appeals and the Architectural Review Commission / Tree Commission. Chief Price contacted Metro Self Storage about renting a storage space for the Village. She noted that the lease is for a 10x20x10 space, commencing on April 24, 2015 with a renewable monthly term at $164 a month. Village Manager Lasday reviewed the impact of changes in Com Ed practices on rates in the Village. She noted that MC2 can beat Com Ed’s rate through May 2016, but our contract extension would continue through 2016, so the Village risk is for the second half of 2016, in the event Com Ed materially drops its rates. She noted that if Com Ed were to drop its rates, the residents would be able to opt-out from MC2. She remarked that she will meet with the Village of Kildeer to amend our joint contract.
