for this area

In this area
100.0%
of households fall
into this segment

In the United States
1.7%
of households fall
into this segment

An overview of who makes up this segment across the United States

Who We Are

Consumers in Top Tier, Tapestry's wealthiest market, earn more than three times the average U.S. household income. They have the purchasing power to indulge any choice. Aside from expenses for the upkeep of their lavish homes, consumers select upscale salons, spas and fitness centers for their personal well-being and shop at high-end retailers for their personal effects. Whether short or long, domestic or foreign, their frequent vacations spare no expense. Residents fill their weekends and evenings with opera, classical music concerts, charity dinners and shopping. These highly educated professionals have reached their corporate career goals. With an accumulated average net worth of more than \$1.5 million and income from a strong investment portfolio, many of these older residents have moved into consulting roles or operate their own businesses.

Our Neighborhood

- Married couples without children or married couples with older children dominate this market.
- Housing units are owner occupied with the highest home values—and above-average use of mortgages.
- Neighborhoods are older and located in the suburban periphery of the largest metropolitan areas, especially along the coasts.

Socioeconomic Traits

- Top Tier is a highly educated, successful consumer market: more than one in three residents has a postgraduate degree.
- Annually, they earn more than three times the U.S. median household income, primarily from wages and salary, but also self-employment income and investments.
- These are the nation's wealthiest consumers. They hire financial advisers to manage their diverse investment portfolios but stay abreast of current financial trends and products.
- Socially responsible consumers who aim for a balanced lifestyle, they are goal oriented and hardworking but make time for their kids or grandkids and maintain a close-knit group of friends.
- These busy consumers seek variety in life. They take an interest in the fine arts; read to expand their knowledge; and consider the Internet, radio and newspapers as key media sources.
- They regularly cook their meals at home, attentive to good nutrition and fresh organic foods.

Market Profile

- They purchase or lease luxury cars with the latest trim, preferably imports.
- They contribute to arts/cultural organizations, educational and social groups, as well as NPR and PBS.
- Top Tier residents farm out their household chores—every service from property and garden maintenance and professional housekeeping to contracting for home improvement or maintenance projects.
- Consumers spend money on themselves; they frequently visit day spas and salons, use dry cleaning services, and exercise at exclusive clubs.
- Near or far, downtown or at the beach, they regularly visit their lavish vacation homes.
- When at home, their schedules are packed with lunch dates, book club meetings, charity dinners, classical music concerts, opera shows and visits to local art galleries.
- Top Tier consumers are shoppers. They shop at high-end retailers such as Nordstrom (readily paying full price), as well as Target, Kohl's, Macy's and Bed Bath & Beyond, and online at Amazon.com.
- At their level of spending, it makes sense to own an airline credit card. They make several domestic and foreign trips a year for leisure and pay for every luxury along the way—a room with a view, limousines and rental cars are part of the package.

The demographic segmentation shown here can help you understand the lifestyles and life stages of consumers in a market. Data provider Esri classifies U.S. residential neighborhoods into 67 unique market segments based on socioeconomic and demographic characteristics. Data Source: Esri 2016. Update Frequency: Annually.

Bannockburn, Illinois: Home Value Comparison

Median Estimated Home Value

This chart displays property estimates for an area and a subject property, where one has been selected. Estimated home values are generated by a valuation model and are not formal appraisals.

Data Source: Valuation calculations based on public records and MLS sources where licensed

Update Frequency: Monthly

12-Month Change in Median Estimated Home Value

This chart shows the 12-month change in the estimated value of all homes in this area, the county and the state. Estimated home values are generated by a valuation model and are not formal appraisals.

Data Source: Valuation calculations based on public records and MLS sources where licensed

Update Frequency: Monthly

Median Listing Price

This chart displays the median listing price for homes in this area, the county and the state.

Data Source: On- and off-market listings sources

Update Frequency: Monthly

12-Month Change in Median Listing Price

This chart displays the 12-month change in the median listing price of homes in this area, and compares it to the county and state.

Data Source: On- and off-market listings sources

Update Frequency: Monthly

Best Retail Businesses

This chart shows the types of businesses that consumers are leaving an area to find. The business types represented by blue bars are relatively scarce in the area, so consumers go elsewhere to have their needs met. The beige business types are relatively plentiful in the area, meaning there are existing competitors for the dollars that consumers spend in these categories.

Data Source: Retail Marketplace via Esri, 2016

Update Frequency: Annually

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records and RealtyTrac.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from GreatSchools.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
